EDUCATION

2023 – 2027	B.Tech in Computer Science and Engineering, Madan Mohan Malaviya University of Technology, Gorakhpur	(CGPA: 8.21/10)
2022	Class 12th (CBSE)	(94.6%)
2020	Class 10th (CBSE)	(95.4%)

WORK EXPERIENCE

Software Development Engineer (SDE) Intern - Amazon June 2025 – July 2025

- Scaled month-end tasks by optimizing system architecture, improving stability and ensuring execution under peak load conditions
- Enhanced regional Tax Dashboard by refactoring UI components and optimizing SQL queries with indexing strategies, reducing execution time by 35% for 5,000+ sellers
- Debugged and resolved critical data retrieval issues in backend services, ensuring 99.8% uptime and accurate data delivery to 50+ internal and external stakeholders

PROJECTS

DPI Engine (Deep Packet Inspection System) [Link to Demo](#)

- Engineered a multi-threaded DPI engine in C++ for real-time traffic analysis, parsing PCAP files to identify applications and extract HTTPS SNI data.
- Implemented core networking components (packet parsing, connection tracking) with load balancing and thread-safe queues for scalable traffic monitoring.
- Validated system reliability by utilizing Python scripts to generate synthetic PCAP files and simulate high-volume network scenarios for testing.

HealthAI Hub (MERN + AI Healthcare Platform) [Link to Demo](#)

- Built full-stack MERN healthcare platform with AI-powered consultations featuring integrated speech-to-text, text-to-speech, and audio recording capabilities
- Developed interactive AI chat interface with 3D anatomical models, emergency detection layers, and OCR-based medical report parsing for diagnostics
- Integrated real-time telemedicine via WebSocket (Socket.io), automated QR appointment scheduling, and Google Meet API workflows for seamless consultations

Finance Tracker [Link to Demo](#)

- Created a responsive finance dashboard (React 19, Vite, Tailwind CSS v4) featuring transaction CRUD, Recharts visualizations, and role-based access.
- Delivered budget planning insights, savings progress tracking, and CSV import/export features to enhance user financial decision-making.
- Applied Component-Driven Development (CDD) utilizing memoization and localStorage persistence for a highly scalable, maintainable codebase.

SKILLS

Languages:	C++, Python
Web Development:	HTML, CSS, JavaScript, React.js
Databases:	MySQL, MongoDB
Tools & Technologies:	Git, GitHub, VS Code
Core Concepts:	Data Structures & Algorithms, Networking, Operating Systems, OOPs

ACHIEVEMENTS & CERTIFICATIONS

- Python AI Course — [Navgurukul](#)
- FLY Program — [CMI](#)
- 200+ questions on Leetcode [[Profile Link: MindAscend 5](#)]
- Secured 1st position at the Arunodaya'24 Skit event and achieved Grade A in a National-level art competition, demonstrating creative execution.

POSITIONS OF RESPONSIBILITY

Event Coordinator, Social Engineers' Board, MMMUT July 2024 – Present

- Spearheaded "Drishyaa," a career counseling event connecting 500+ students with 15 industry professionals for mentorship and career guidance.
- Managed end-to-end event logistics, promotional strategies, and coordinated volunteers to ensure a seamless conduction

Club Member, Fine Arts, MMMUT Dec 2023 – March 2025

- Created large-scale arts, crafts, and stage props for university cultural festivals.
